### Professional Summary

Hello, I am Ibrahim Shabrawy, A passionate UI/UX Designer focused on creating simple, functional, and engaging user experiences, with a strong background in Android application development, which gives me a deep understanding of how to transform ideas and designs into efficient, real-world digital products. I have experience in user interface design, user behavior analysis, building user flows and wireframes, and optimizing user experience to meet business goals while satisfying end users. My technical background allows me to collaborate effectively with development teams and understand technical constraints, ensuring smooth and accurate implementation of designs. I am always driven to deliver smart design solutions based on analytical thinking, attention to detail, and continuous learning of the latest UI/UX trends and best practices.

### UI / UX Projects

- [Fitness App \(HM\)](#)
- [Burger App \(Blaze\)](#)
- [Coffee App \(CoffeeLmeen\)](#)

### Work Experience

#### Junior Android Developer | Mar 2024 - Aug 2025

##### Visions tech

- Developed Android applications using Kotlin and Jetpack Compose, focusing on creating interactive user interfaces and enhancing user experience.
- Contributed to improving the second version of the "Gannatak" app, an online marketplace for selling seedlings and providing agricultural consultations, by resolving complex bugs and optimizing performance.
- Played a key role in the development of "Wajad", an online school application, leveraging technologies such as Retrofit, Room, and Hilt within the MVVM architecture.
- Worked on building the "Haraj" investment platform for the Saudi market, implementing cutting-edge technologies to meet user needs.
- Consistently improved code quality and adhered to best programming practices.
- I have worked on modifying and improving Flutter projects, including troubleshooting, customizing UI designs, and integrating additional features to meet project requirements such as "Mr. Tayer", "Tayer Man", and "Tashilihi".

### Projects

- [Gannatak App](#)
- Gannatak Consultants App
- Wajad App
- Haraj App

# **Intern Android Developer | Jun 2024 - Mar 2024**

## Visions tech

- Successfully completed a comprehensive training period at Visions Tech, focusing on mastering Kotlin, Jetpack Compose, and advanced Android development concepts.
- Acquired hands-on experience with modern tools and frameworks, including Hilt for dependency injection, Retrofit for API integration, and Room for local database management.
- Applied training knowledge to real-world projects, contributing to the development and optimization of Android applications.
